EXPERIENCE

Software Developer Full-stack - Freelancer

- **August 2022 - Current**

As a freelancer specialising in web development, I have helped startup companies establish a solid online presence. Over that time, I've solved crucial usability, speed and responsiveness problems essential for these companies to position themselves well in the digital marketplace.

CNC Programmer - Nouvelles Fermetures International

- **Mar 2021 - Ago 2024**

Programming of 3-axis CNC machines and interpretation of technical drawings.

PROJECTS

Genesis Institute 🔗

Project Summary: CMS with intuitive UI, customised editor, control panel, blog, API connections.
Tech stack: ReactJS, HTML, CSS, JS, Tailwind, Zustand, Figma, NextUI and Mongo-db.

Legacy House - (Volunteer work) 🔗

Project Summary: Website for digital presence, social support, and emotional assistance.
Tech stack: ReactJS, HTML, CSS, JS, Tailwind, Figma and Next-UI.
